

# *Testimonial and Recommendation Letter from Becky Browne at Lockton Insurance*

*March 2006*

*To Those Concerned,*

*I was very impressed by the “Car Smarts 101” presentation that Nick and his wife gave to our Lockton Affinity office. The session was full of very helpful information from the do’s and don’ts of oil changes to buying new/used cars. As a woman it can be so intimidating when working with car dealerships or automotive garages and the one area the Sallas Auto Repair strives on is being fair to the customer and explaining in “simple” terms what is going on with the car. I would recommend this car presentation to any company or group that would be interested in learning more about basics of cars from A-Z.*

*If you need anything else let me know.*

*Thank you,  
Becky Browne
